## HAS MURPHY THE KEY?

### That's What the Anti-Bryansites Want to Know.

## CONFERENCES AT DENVER

### Empire State's Position Is Still Very Undetermined.

## TAMMANY BOSS IS WAITING

### Effect of Bryan's Attack on Guffey Not Yet Apparent—It Jolted the Grand Sachem.

DENVER, July 4.—Whether to continue the fight against William J. Bryan or to abandon the field to those who insist that the Nebraska will be nominated on the first ballot, has been the subject of many conferences here today in which the leaders of the anti-Bryan forces have been participants. The decision hinges upon the attitude of the New York delegation, which concededly will follow the judgment of Charles F. Murphy, leader of Tammany Hall. Mr. Murphy is not ready to announce his position, and said as much to such men as Col. J. M. Guffey of Pennsylvania and William F. Sheehan of New York.

These men gained the impression that Mr. Murphy is not disposed to join in a movement to defeat Mr. Bryan if it shall be demonstrated within the next forty-eight hours beyond a question of doubt that the task is hopeless. Mr. Murphy does not intend to make a speech in defense of a lost cause. He is not ready at this time to commit New York's weight of seventy-eight votes to any candidate, however, and is awaiting for developments between now and the time of the New York state caucus Monday to determine his course.

### Question Is Still Open.

With New York's position undetermined, the question of carrying on the fight against Mr. Bryan is still open. The conferences today were not directed by the representatives of J. Edgar George Gray and Gov. Johnson, the only candidates against Mr. Bryan who are now in the field, but were entirely apart from any plan to further the interests of either of these men. The move was made by one of the strongest opponents to Mr. Bryan and disclose whether there exists a chance to prevent his nomination. The discussion was more than of the strength of the convention against Mr. Bryan in all probability would bring other candidates into the field. The discussion was more than of the strength of the convention against Mr. Bryan in all probability would bring other candidates into the field.

### Guffey Roast Stirs Interest.

What effect the attack by Mr. Bryan today upon Col. Guffey, the national committee man from Pennsylvania, will have upon the situation is being awaited with great interest. Col. Guffey has many friends in the convention and is particularly close to a large number of the delegates from New York state. In connection with the publication of the attack, which was made in Lincoln today by Mr. Bryan, he addressed the delegates from the Keystone state, an interesting incident which may have some significance upon deciding the question of whether the fight against Mr. Bryan should go on.

### Is It True, Boss?

Mr. Guffey called on Mr. Murphy to learn if the reports were true. If New York joined the Bryan forces he was ready to follow the lead of that state and to release the delegations from other states who had pledged themselves to aid in the anti-Bryan movement. While Col. Guffey was consulting with Mr. Murphy an afternoon newspaper was taken into the room by Daniel F. Cohan, grand sachem of Tammany Hall and Mr. Murphy's right-hand man. The paper carried an account of Mr. Bryan's speech at Lincoln and Mr. Cohan was heard to read the article aloud. Neither Mr. Murphy nor Mr. Guffey had seen it. Before Mr. Guffey had left the room Mr. Murphy took it out of his hand and, beginning at the first, read it to himself. He was amazed at the character of the attack upon him, which was a personal attack on his private life.

### Mercy! Is This Harmony?

"So that is the man who wants to be elected President on a democratic harmony program," said Mr. Murphy with some emphasis.

### Clean Food.

From the Boston Advertiser. The speakers of authority, who addressed the women of the federation on food topics, it is worth notice, laid more stress on clean food than on pure food—that is, from the medical standpoint, it is a good deal more important that food shall not carry the germs of disease than that it shall be chemically pure. Table salt, for example, may contain some soda salts, but it is not a health hazard. It is not other than the chloride and still be perfectly healthful. Corn bread is less healthful when made from pure corn meal than when it has some admixture of wheat flour. But food that is not clean may be more dangerous than any adulterated food product sold today, provided the adulterated article carries no disease germs. It has angered prominent scientists to see club women making such a fuss about the purity of vanilla extract or raspberry preserves, and paying so little attention to the tainted milk sold in crowded cities. The milk in one day will do more harm than the sale of pure milk in twenty years. It is well enough to ask that purchasers of foodstuffs should not be cheated by the substitution of inferior articles, but it is far more service to humanity to prevent the sale of typhoid poisoned milk.

### Manhood's Estate.

From the New York Times. It is a very foolish convention which lays down that we are grown up when we have reached our twenty-first birthday. The real majority is reached when we begin to earn our own bread and butter, and to bring forth the light which has been fostered in us by the care of others for the last ten or fifteen years. Self-dependence and self-reliance—that is the real manhood.

### Honor in Servants.

From the New York Times. The great master of Rugby made his boys great by putting them on their honor. If a servant has any sense of honor, trust to it. He hasn't, discharge her. Let her fair trial, and get one who has.

## WILBUR WRIGHT SCALDED

### Aeronaut Faints With Pain, But Pluckily Recovers.

LEMAN, July 4.—J. Wilbur Wright, who has selected this place for his aeroplane experiments, was painfully scalded on the chest and arms today, as the result of the bursting of a water tube while he was testing the mechanism of his aeroplane.

### Declines to Discuss Case.

Miss Haislip had retired when a Star reporter called to see her. She willingly conversed with the reporter, but declined to make a statement to the reporter for publication, her counsel having advised her not to discuss the case. Before seeing counsel, however, she had told the police her version of the shooting.

### Thought Cartridge Was Blank.

Miss Haislip mentioned "Ernest" and "Charlie" as being with her at the time she shot the boy, another young lady being also of the party. It appears that a quartet of young folks were driving about the city in a wagon using a pistol as a toy. The boy, who was sitting in the back seat, was holding a pistol and was about to fire it when he saw that it was a blank cartridge.

### Gives Opinion of the Case.

Speaking of the presidential contest, Ambassador White pointed out the delicacy of the diplomat's position; nevertheless, in view of the fact that only a single candidate yet was nominated he thought it improper to express his opinion of Mr. Taft, the most prominent of the best fitted man ever nominated to assume the high office of President.

### Tribute to Roosevelt.

The ambassador's tribute to President Roosevelt aroused tremendous applause. He said that President Roosevelt had infused new ideals, which had drawn the young men of America into politics. Turning to the publication of the attack on Mr. Taft, he said that he would remain loyal to him all his life.

### French Ambassador Speaks.

Ambassador Jusserand's remarks aroused intense enthusiasm. He extolled the United States as an example to France and to the world. He said he had watched the country at work and at play upon ordinary and extraordinary occasions, and was convinced that its pluck and constant good humor proved two things—its moral health and its great future.

### Chooses Four Delegates to the Salt Lake Convention.

The local union of the United Brotherhood of Carpenters, at a meeting held at the Typographical Temple Friday night, elected four delegates to represent it at the national convention of the Brotherhood of Carpenters to be held at Salt Lake City September 15. Those elected were Edward B. Byrne, L. W. Lloyd, Joseph Reilly and G. L. Adams. Between 600 and 700 carpenters attended the meeting and the union appropriated \$2,000 for the expenses of the delegates to Salt Lake City.

### Brazil Wants Big Navy.

Gun Representative Scouts Story of Sale of Warships. PARIS, July 4.—G. P. Brodigan, technical representative of a gun company, says today in a statement that the Brazilian government has agreed to buy a single one of her new warships to Japan, a statement made by the Brazilian embassy at Washington, is no mere diplomatic announcement.

### Wait Till the Caucus.

The only result of the conference that could be ascertained was the admission that the position of New York will not be determined until the caucus Monday. This much was regarded as a successful sign by the men who are endeavoring to bring about an expression of sentiment against Mr. Bryan being nominated for a

## INVESTIGATE LAS VACAS RAID.

### National and State Governments Conduct an Inquiry

Investigation into circumstances attending the Las Vacas raid, following which it is alleged a number of persons participating therein were allowed to return across the Mexican border into Texas, is being made by the national and state governments. The data secured will be used in any prosecution that may be instituted for a violation of the neutrality laws and to meet any representations made when the city next week.

### Only One Minor Mishap Occurs to Mar the Getaway.

CHICAGO, July 4.—Nine of the ten balloons entered into the "Chicago to ocean" race left here late this afternoon. The start was originally scheduled for 3:30 o'clock, but was delayed to such an extent that the first balloon, the "Chicago," did not cast off its moorings until two hours and fourteen minutes after the scheduled time. The others arose at irregular intervals, the last to get away, the mammoth "Chicago," of 110,000 cubic feet capacity, leaving at 7:30 o'clock, when night was descending fast and the spectators could scarcely distinguish the huge bulk as it sailed into the upper strata of the air.

### "I Will" Fails to Start.

The only other happening to mar the race was the failure of the balloon "I Will" to start. The bag had showed several defects when it was inflated for a trial flight several days ago and C. H. Ferrigo of Chicago, its owner, was unable to obtain the necessary repairs in time for today's event. He called on C. E. Gregory, who had been scheduled to accompany J. L. Case in that balloon.

### Miss Pauline Haislip, Shooting Pistol, Wounds Boy.

Miss Pauline Haislip, shooting pistol, wounds boy. "Didn't know it was loaded" will probably be the defense of Miss Pauline Haislip, eighteen years of age, if she is ever required to appear in court for having shot a boy in the knee yesterday shortly before noon while celebrating Independence day. The boy was in front of the home of his parents, the north side of Florida avenue near 14th street, at the time. He was taken to Garfield Hospital and Miss Haislip was arrested at her home, 2033 9th street.

### Thought Cartridge Was Blank.

Miss Haislip mentioned "Ernest" and "Charlie" as being with her at the time she shot the boy, another young lady being also of the party. It appears that a quartet of young folks were driving about the city in a wagon using a pistol as a toy. The boy, who was sitting in the back seat, was holding a pistol and was about to fire it when he saw that it was a blank cartridge.

### Gives Opinion of the Case.
